Compliance Regulatory Professionals

Perform Better by Protecting the Firm from Compliance Risk

Duration **1 Week**	Fee **from £1,400**	Category **Finance & Business Acumen**
Ref **FB38**	Language **English**	Certificate **Certificate of attendance**

Introduction

This training programme is designed to provide the knowledge and skills required to understand and support regulatory compliance and enterprise-wide risk management. In addition, to promote the best preparations and international standards that align with business and regulatory obligations, it is necessary to understand how to deal with commands, markets, products, and transactions.

This is a rigorous and highly functional training programme that will prepare you to become a compliance expert.

It teaches the fundamental skills required to build the right relationships with your regulators and board of directors, as well as to deal with yourself at all levels of your organisation.

This training course also covers several regulatory body topics for all firms in order to establish and maintain effective systems and controls, promote an efficient compliance monitoring programme, and create a risk-based Customer Due Diligence (CDD) process. It provides you with the best methods for achieving your goals in an efficient and responsible manner while adhering to all applicable laws and commands.

In addition to providing excellent tools to protect your company from compliance risk, we can also assist you with professional models and internal policies in corporate governance and risk management.

Course Objectives of Compliance Regulatory Professionals

By the end of this training programme, you will be capable to:

- Explain the objectives & roles of regulation
- Recognise the abilities of compliance
- Develop a good knowledge of compliance principles
