HR Data Management and Data Quality

Duration	Category	Ref
1 Week	**Marketing & Sales**	**MS462**
Language	Certificate	
English	**Certificate of attendance**	

Introduction

Effective HR data management is essential for making informed decisions, improving HR processes, and maintaining reliable employee information. This five-day course provides practical knowledge and skills for managing HR data, improving data quality, ensuring data accuracy, and supporting secure and effective use of HR information.

Objectives

By the end of the course, participants will be able to:

- Understand the principles of HR data management and data quality.
- Identify and correct common HR data errors.
- Apply data quality standards and validation techniques.
- Maintain accurate, complete, and consistent HR data.
- Improve HR reporting and decision-making through reliable data.
- Apply appropriate data security and confidentiality practices.

Target Audience

- HR Officers and HR Administrators
- HR Data and Reporting Officers
- HRIS/HR Systems Staff
- Personnel and Records Officers
- HR Assistants
- Managers and professionals responsible for HR data
