Introduction

This training course in Social Responsibility Inside Corporate provides in-depth insights and perspectives for managers, professional leaders, policymakers, academic professionals, and every employee on Corporate Responsibility strategies.

Corporate Social Responsibility aims at addressing the impact that organisations wear society, the environment, and therefore the economy. It is increasingly considered one of the foremost influential non-financial indicators of a company's development, operating style, and, brand image. The business case for a tailored corporate social responsibility strategy has proven: an increase in employee retention, efficiencies within the companies' operations often leading to higher quality products reduced costs, sustainable growth, and, enhanced investor relations.

This training course on Social Responsibility Inside Corporate will highlight:

- The reasons why every company should integrate SRC into their business operations
- Different approaches to SRC.
- How to define and devise an SRC strategy for your company
- Will correctly engaging stakeholders will be the essential key to sustainable growth within a company?
- Upcoming trends and whether or not these can fit into a company profile.
