Introduction: The Business Need for Simplification

- The Complex Work Environment
- The Primary Drivers for Workplace Complexity
- The Business Case for Simplification
- The Value Chain of Core Processes
- Definitions of Processes, Procedures and Business Documentation
- Complexities Resulting from Frequent Change

DAY 2

Designing and Developing Simplified Process

- The Structure of labor and Exploring Workflow
- The Fundamentals of Effective Procedures
- The Key Stages of labor Simplification
- Redefining Optimal Productivity
- Design Thinking and Simplification
- Removing Complexity via Simple and Concise Procedures

DAY 3

Developing Documentation and Automation

- The Management and Control of Documents
- Developing and Writing Work Instructions
- Publishing and simple Access of Documentation
- Benefits of labor Place Visuals
- The Opportunities for Technology and Automation
- Simplification of Electronic Forms

DAY 4

Analyzing and Simplifying Procedures

- Diagnosing Problems and Solutions Using Workflow Analysis
- Benefits of Connected Systems and Platforms
- The Use of various Flowcharts in Simplification Initiatives
- Flowchart Elements
- Dynamic Technological and style Innovations in Simplifications
- Continuous Improvement and Process Simplification Opportunities

DAY 5

The Simplification Resolution

- Alignment of the Simplification Resolve with Corporate Objectives
- Opportunities to Simplify the entire Organization
- Building a Simplification Project team
- Simplification Project Approaches for the Organization

- Review of the Simplification Action Plan
- What’s next? The Sustainability Resolution for Simplification
