Camp & Compound Management

Kuala Lumpur · 23 - 27 Nov 2026

Date	Venue	Duration
23 - 27 Nov 2026	**Kuala Lumpur**	**1 Week**
Fee	Ref	Language
£5,000 GBP	**SC395**	**English**

Introduction

This course provides a theoretical foundation in camp and compound management within sectors such as construction, oil & gas, and remote operations. It focuses on the principles, frameworks, and administrative systems required to manage workforce accommodation effectively. The course emphasizes structured knowledge, standards, and management approaches without involving practical exercises or field applications.

Course Objectives of Camp & Compound Management

By the end of this course, participants will be able to:

- Understand the concepts and frameworks of camp and compound management
- Identify key components of accommodation and facility operations
- Recognize international standards related to camp management and HSE
- Explain administrative and organizational structures within camp environments
- Understand the principles of service delivery (catering, housekeeping, maintenance)
- Analyze cost structures and resource planning concepts

Course Methodology of Camp & Compound Management

- Lectures and Expert Insights: Leading industry experts will share their insights and best practices.
- Case Studies: Analyze real-world talent acquisition challenges and solutions.
- Group Discussions: Engage in meaningful discussions and share experiences with peers.
- Role-Playing and Simulations: Practice recruitment scenarios to enhance skills.

Organizational Impact of Camp & Compound Management

After completing this course, organizations will benefit from:

- Increased awareness of structured camp management systems
- Improved understanding of operational standards and policies
- Better alignment with international management and safety frameworks
- Enhanced administrative planning and documentation practices

- Stronger theoretical foundation for future operational improvements

Personal Impact of Camp & Compound Management

Participants will gain:

- Solid theoretical knowledge of camp and compound management
- Understanding of industry standards and management systems
- Improved analytical thinking regarding camp operations
- Enhanced ability to contribute to planning and administrative roles
- Broader career awareness within facility and camp management fields

Who Should Attend

This course is suitable for:

- Administrative staff in camp or facility management
- Junior managers and coordinators
- HR and operations personnel involved in workforce accommodation
- Project support staff
- Individuals seeking foundational knowledge in camp management
