Introduction

This Emotional Intelligence and Creative Reframing Skills for Innovative Policing training course will assist law enforcement officers in gaining competency to more effectively protect and serve the public, learn to appropriately monitor their own and other people's emotions, and use this knowledge to guide their thinking, action, and decision making; particularly during intense confrontation or interactions with the general public. Policing is a stressful, difficult, high-risk, and emotionally taxing profession. Emotional Intelligence (EQ) appears to be a factor in predicting work performance that requires regular interpersonal contact with people—the cornerstone of the law enforcement profession.

This highly interactive and engaging training course will assist you in developing positive emotional labour control, that is, how you manage your own emotions while providing service to others in the execution and performance of job duties. This training course will teach you how to achieve and maintain a high level of successful negotiation and social interaction, how to understand the perception and emotional makeup of stakeholders, how to gain in-depth knowledge, practical skills, and intrinsic motivation to practice emotional intelligence, and how to exemplify a commendable model of community policing.

This training course will highlight:

- Trait and ability models of the Emotional Intelligence (EQ)
- Holistic model and approaches to handling emotions
- Brain gym sessions and reframing techniques to stimulate neural networks
- Assessment of your EQ and summary of customised personal development pathway
- Therapeutic power relaxation session to inspire optimism
